EXPERIENCE

Esri

Incoming Software Development Engineer | Aug 2018 | Washington, DC
Software Development Intern | May 2017 – Aug 2017 | Washington, DC

- Developed features for ArcGIS Hub, an **Ember** application that provides a platform for connecting government and citizens through open data, initiatives, and community engagement
- Resolved issues with authentication gating, mobile optimization, and intercommunication with the ArcGIS Online API
- Prototyped and built an application for templating ArcGIS Online mapping applications to make them compatible with any Esri-hosted dataset
- Reduced the time necessary to template new mapping applications for ArcGIS Hub by over 80%

Duke Department of Computer Science

Teaching Assistant | Jan 2017 – present | Durham, NC

- Taught Software Design & Implementation (CompSci 308) and Web Development (CompSci 290) under Prof. Robert C. Duvall
- Helped Prof. Duvall design the pilot curriculum for CompSci 290, which ultimately focused on **JavaScript** and **Rails**

Clínica Esperanza

Mobile Development Engineer | Aug 2017 – present | Roatán, Honduras

- Building an **Android** mobile application that will be used by vaccinators to record immunization events for patients
- Implemented basic record storage, automated testing, and failback handling during network outages
- Expect complete onsite deployment during Summer 2017

inspectX

Full Stack Web Developer | Oct 2016 – Feb 2017 | Durham, NC

- Served as a full stack web developer for a startup platform built with **Rails** that connects prospective car owners with local mechanics to provide economical, onsite pre-purchase inspections
- Resolved existing back end issues with authentication, form submission, payment, and database management

Centro Integral de Equinoterapia

Research Volunteer | June 2016 – Aug 2016 | Guayaquil, Ecuador

- Built a static, mobile-optimized website with **jQuery** to increase the center's community outreach and public exposure
